- d) Work plan and training to be developed, including the proof of enrollement on any other courses that the candidat is or might be signed up for the duration of the Fellowship;
- e) Curriculum Vitae;
- f) Updated document that proofs exclusive commitement of the applicant to the Fellowship:
 - i) If applicable, updated document from the hosting institution (University) where the applicant is currently working, where it states: job role, working hours (per week and average per semester);
 - ii) If applicable, a document where it states the professional activities developed, compatible with the exclusive regime in article 5.º of the Fellowship Status.

6. Workplan:

MUNICÍPIO DO FUNCHAL

Track A - Interactive Narratives for Video Games

The objectives include the study and implementation of new ways of creating dynamic plots between different characters in order to increase the levels of immersion and entertainment, create and evaluate new systems of interactive narratives that are easier to use, mainly by multidisciplinary teams and evaluate by methods of "playtesting" different video game prototypes provided by companies.

Track B - Virtual Reality for Health and Well-Being

The objectives include developing different types of research: analytical, descriptive, experimental and qualitative in the following themes of games for health and well-being, games for education and learning curriculum and games for training and sports rehabilitation; run/support interventions based on customized exergaming programs and conduct assessments with the general population or people with special considerations (i.e., cardiovascular, metabolic, and brain-related disorders) on physiological parameters during the program-based intervention custom "exergaming".

Track C - Prosocial Computing for Energy Communities

The objectives are to develop a prosocial simulation game that simulates the daily activities and interactions between the main actors in energy communities and to leverage transformative games in order to develop prosocial agents for efficient energy systems.

7. Workplace:

The work will be developed at Centro Cultural e de Investigação do Funchal of Interactive Technologies Institute (LARSYS), under the scientific supervision of Professors: Pedro F. Campos (Principal Investigator), Professor Élvio Gouveia, Professor Frederica Gonçalves and Doctor Lucas Pereira.

8. Duration:

The research fellowship(s) will have the duration of 12 months, renewable. The decision to renew any Fellowship, will be entirely at the discretion of the President of Câmara Municipal do Funchal, or any Member of the Council designated by him. This will be through an application process, under the supervision and proposal of the professor in charge of the applicant, within the CMF (Câmara Municipal do Funchal) Regulation for Research Studentships and Fellowships.

9. Monthly maintenance allowance:

According to the values for CMF (Câmara Municipal do Funchal) Regulation for Research Studentships and Fellowships, the amount of the monthly maintenance allowance is 1741,00€, being the payment method an option of the Fellow by Wire Transfer.

MUNICÍPIO DO FUNCHAL
